FlexLM & FlexNet .bin | Gemini AI PDF | TH / EN UI

License Alerts — AI Expiry Management

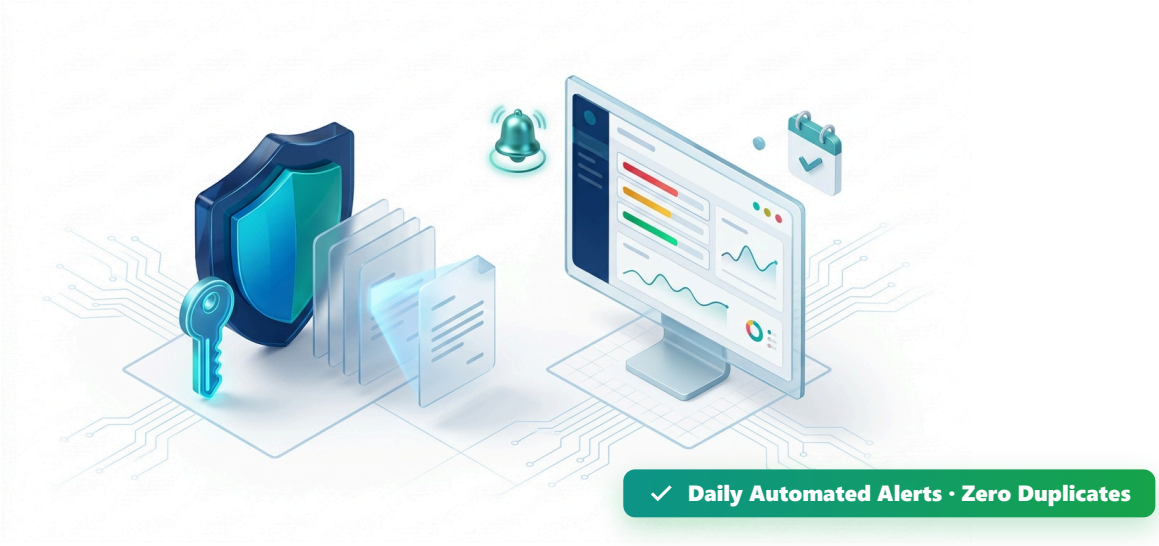

Turn Complex License & Certificate Tracking Into Zero-Miss Control

CLOUD EXPIRY PLATFORM

AI-Powered · Zero-Miss Alert

Software Licenses + Safety Certificates

Automated file parsing, strict department isolation, and reliable advance email alerts in one cloud workspace

✓ **Daily Automated Alerts · Zero Duplicates**

2-in-1 LICENSES & CERTS

One Unified Platform for Engineering Licenses & Compliance Certificates

Batch-upload up to 20 files at once — native parsers for **FlexLM (.lic/.txt/.dat/.log)** and **PTC/FlexNet (.bin)** plus **PDF** AI fallback — alongside personal training certs (confined space, work at height, electrician) and annual site inspections.

WHY LICENSE ALERTS WINS

Solving Real Pain Points for Software Resellers & Enterprise Teams

Smart Parsing + Verified AI

Extract license entitlements and Thai/English cert PDFs via Gemini AI (with B.E. → C.E. year conversion) — always confirmed by a human before alerting.

Department Isolation & Routing

Keep teams (e.g., NX vs. PTC) cleanly separated — members see only their own department's customers, licenses, and certs, with dedicated alert routing.

1-Click AI Drafts & Excel Reports

Draft concise TH/EN renewal emails (formal or friendly) directly from live license facts with personal Reply-To routing, and export color-coded .xlsx workbooks in one click.

ENTERPRISE-GRADE RELIABILITY & SECURITY

- ✓ Customizable advance thresholds (default 30 & 15 days) backed by database-level deduplication
- ✓ Unified 4-model Gemini Flash fallback with automatic retry keeps AI parsing & drafting resilient
- ✓ Built-in alerter health monitoring (Job Logs, Heartbeat Ping, Ops Alerts, /api/health)
- ✓ 3-tier RBAC with instant DB-verified revocation, audit logging, and native TH / EN UI toggle

Basic Starter	2 Users · 50 Licenses · Core Alerts	**Standard** Business	10 Users · 300 Licenses · 200 AI/mo
